Wall Frames

Wall Frame Q-Frame® 15/25

Wall Frames Q-Frame® prove their worth with a contemporary and premium look. Only 15 mm deep, the exceptionally shallow frame makes them perfect for wall-mounting, not to mention their exceptional price-performance ratio. The super-sturdy design with profile depth of 25 mm is particularly well-suited as a vehicle for showcasing large-scale, textile wall coverings.

Wall Frame Q-Frame® double-sided

One frame – two views. When suspended from ceilings or cross-beams, the top-quality double-sided Q-Frame® advertising medium is an eye-catching must at the point of sale, during exhibitions and presentations.

The frame system can be covered on both sides. Thanks to the keder sewed onto the prints, changing the motif is more than easy. The combination of opaque and transparent materials allows interesting 3D effects to be generated.
